

# DIY Sock Bunny

\*While supplies last!\*

Step 1: Fill sock halfway with rice, and tie at the top.

Step 2: Tie 2/3 of the way up to create the body and head.

Step 3: Use scissors to cut the remaining top portion of sock in half for the ears, and shape the ends.

Step 4: Tie a bow with ribbon around the middle and add a bow around the ears if desired.

Step 5: Use hot glue to add gems for eyes. Glue twine for whiskers and add a button nose.
